## CONCEPT

For regional fleets that want to keep going no matter what, Bridgestone RW-STEER 001 and RW-DRIVE 001 represent the right choice. Part of Bridgestone truck and bus range, these tyres offer excellent performance in challenging winter and all year-round. Increased mileage, wear life, and durability also help fleets achieving a lower cost per kilometer.

### RW-STEER 001 **NEW**

#### ENHANCED WEAR LIFE

Better mileage vs actual wear life of M788<sup>1)</sup>  
Optimised casing construction for improved even wear

#### GOOD SNOW AND ICE HANDLING PERFORMANCE

Optimised contact pressure distribution and footprint vs M788

#### WINTER READY

3PMSF & M+S

#### RFID

Unique Tire Identifier Equipped on all sizes

### RW-DRIVE 001

#### HIGH PERFORMER IN WET

Wet Label Grade B

#### HIGH WINTER PERFORMANCE

High winter potential (pattern design)

#### OPTIMISED FOR ALL YEAR-ROUND

Evolving tread pattern across the tyre life for year-round use

#### WINTER READY

3PMSF & M+S

## FEATURES & BENEFITS

#### C.T.D.M.

Optimises the casing contour providing even pressure distribution on contact patch.

**Benefit:** longer wear life and higher uneven wear resistance.

#### NEW CASING COMPOUND

New casing compound to reduce energy loss and minimise heat generation

**Benefit:** lower fuel consumption and better durability.

#### CONVEX BLOCK DESIGN

A special convex block design creates higher contract pressure at trailing edge to prevent uneven wear.

**Benefit:** longer wear life.

#### TIE BAR

The tie bars between the tread blocks in the shoulder area increases circumferential stiffness.

**Benefit:** longer wear life and better driving comfort by reducing the heel and toe wear.

#### ZIG-ZAG SIPES

Zig-zag sipes improve overall block stiffness and reduce block deformation in the sliding area.

**Benefit:** better grip on snow and ice.

## BRIDGESTONE PREMIUM TRUCK & BUS WINTER TYRE RANGE

From premium Bridgestone new tyres to top-quality Bandag retreads, the Total Tyre Life programme helps fleet owners extend the life of their tyres and thus lower the total cost per km, thereby boosting their return on investment and sharpening their competitive edge.

All Bridgestone winter tyres and Bandag winter retreads undergo a series of rigorous tests to ensure their capabilities to deliver high safety and quality standards in winter operations. They are specifically designed to provide optimal grip and traction even in the most extreme conditions (rising far above the safety threshold of many alpine-marked tyres), making them the perfect choice for safe driving on winter conditions.
